frank and outspoken statements of what Duffy's Mait Whiskey has done for them.

REV. W. N. DUNHAM, D. D.

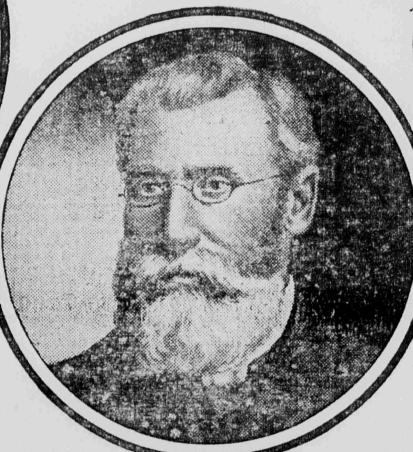

Gentlemen: In answer to your letter asking if it is true that I have used with signal success Duffy's Pure Malt Whiskey, I beg to say that such is the fact. Indeed, I do not believe that I would live to-day were it not for your medicine. For many years I have suffered with an affliction of the throat and bronchial tubes, which no medicine seemed to touch, no doctors to reach.

I have taken Duffy's Pure Malt Whiskey for about four months for this complaint, and have had great satisfaction from the same, and I believe that its continued use will keep me comfortable. I am eighty-two years old and can hardly expect to be permanently cured. Though I am an avowed temperance man and a minister of the Gospel, I do not hesitate to recommend and endorse Duffy's Pure Malt Whiskey, a medicine. Rev. W. N. Dunham, D. D., Cheyenne, Wyo., Sept. 14, 1904.

The Endorsements From These Eminent Preachers

Are but the outpourings of grateful souls, the letters of men who have been relieved of great suffering and who openly acknowledge the great medicinal value of Duffy's Pure Malt Whiskey. Ministers of the Gospel, doctors of medicine, nurses and people in every walk of life unite in commending the wonderful medicine-the only perfect tonic-stimulant, the one true medicinal

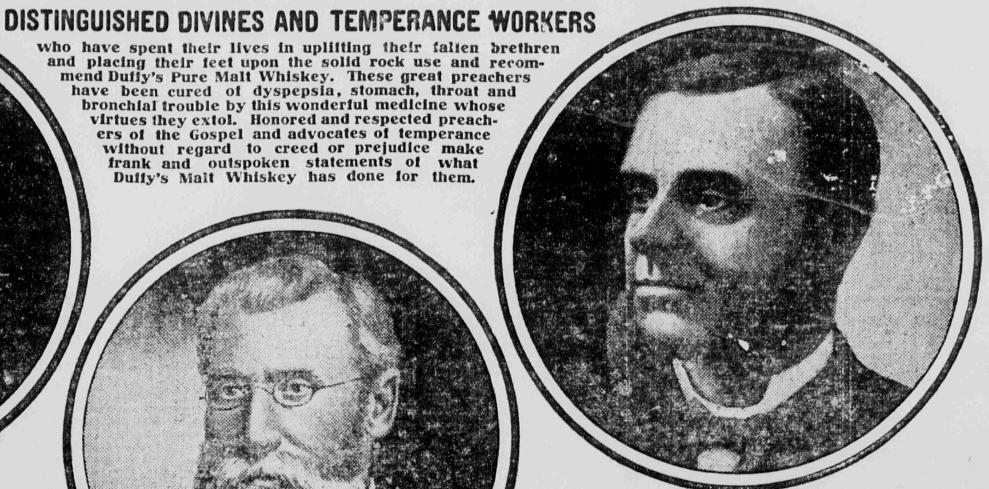

Duffy's Pure Malt Whiskey has carried the blessing of health into more homes during the past fifty years than all other medicines combined. It cures pneumonia, pleurisy, consumption, coughs, colds, grip, bronchitis, catarrh, asthma and all disease of the throat and lungs; indigesion, dyspepsia and every form of stomach trouble; nervousness, malaria and all low fevers. It tones up and invigorates the heart, and gives power to the brain, strength and elasticity to the muscles, richness to the blood. It brings into action all the vital forces, mak, digestion perfect and enables you to get from food all the nourishment it contains. It is invaluable for overworked men, delicate women and sickly children. It is a promoter of good health and longevity, takes the old young and vigorous and keeps the young strong.

REV. A. McLEOD, D. D.

On January 22, 1904, Rev. Dr. McLeod writes:—"I am now in my 73d year and have served God fearlessly and to the best of my ability in my chosen calling. For more than forty years I have been abilited with dyspepsia and nervous prostration. At times I would get so run down constitutionally through over-work as to be disqualified entirely from discharging my ministerial duties. The older I grew the more the disease seemed to prey upon me. The most noted physicians failed to prescribe any medicines that benefited me. I could neither eat nor sleep, and for more than two years I had to take sleeping powders every night. My nervous prostration became well nigh unbearable. But for the grace of God helping me I would not be in the 'and of the living. Language fails to express the agony of my mind. Something over a month ago I began taking your preparation. Duffy's Pure Mait Whiskey. In the brief period of two days I found that it began to help me. It gave me strength, aided my digestion, settled my nerves, and I have gained ten pounds since taking it.

"I thank God there is such a medicine to be had, and recommend all people with weak, broken-down constitutions, and nervous people especially, to use it. I feel that it will help them. I will be glad to answer any communicatio's in regard to the healing virtue of your preparation. I am a temperance man, and I do not think my position in this matter will be misunderstood."—Rev. A. McLeod, D. D., Greenleaf, Mich.

REV. M. N. HOUGHTON, D. D.

Gentlemen: I want to go on record as saying that I regard Duffy's Pure Malt Whiskey as one of the greatest gifts that God has made to man. I know of many cases of lung troubles that it has cured, and it restored me to perfect health after I had suffered several years with chronic stomach trouble and nervousness, and when my doctors failed to help me. It is indeed a medicine to be

thankful for.

And in this connection I want you to understand that I have preached against the liquor traffic for years, and that I have always strongly opposed the use of any liquor as a beverage, and will continue to do so. I am an ordained clergyman in good and regular standing. Rev. M. N. Houghton, D. D., Bradford, Pa., June 5, 1904.

Duffy's Pure Malt Whiskey contains no fusel oil, and is the only whiskey recognized by the Government as a medi-cine. This is a guarantee.

The police sped to the dock. There was the box. They inclined their ears. A clock was ticking within. The Bureau o Combustibles came along and soaked it in seawater for an hour. Then a hardy cop opened it. The letter had told the truth, within were 100 pounds of dynamite and a time discharge apparatus made of an electric battery, the mechanism of a clock and a cigar lighter. It would have gone off in forty hours, only, as stated, there were no caps on the fuses and the trigger which was to release the mechanism was not set.

RAREST SHAKESPEARE FOUND. Disputed 1594 Edition of "Titus Andronicus" Discovered in Sweden. Special Cable Despatch to THE SUN

LONDON, Jan. 14 -- One of the most interestin romances in literature has just been announced. It is nothing less than the discovery in the house of a countryman in Sweden of an almost perfect 1594 quarto of Shakspeare's "Titus Andronicus. The very existence of this edition has hither-

to been discredited. In Arber's transcript of the registers of the stationers of London the edition is recorded, but most bibliographers, in the absence of proof, regarded it as a sham entry. The only other evidence is in Langbaine's Dramatic Poetry, 1691, in which it is stated that "Titus Andronicus" was

first printed in quarto in London in 1591, adding that no copy survived of that edition. Yet a London bibliographer heard on Dec. 7 from the librarian of the Lund University who had been intrusted Bertha Krupp's Engagement to Dr. Heck with the care of the extraordinary find above described.

Above described

The only blemish in the quarto is that about ten words have been erased from the text. Assuming that it is genuine the bibliographer thinks it will probably come to England and be sold at auction at Sotheby's, where it will probably fetch from £40,000,000 capital of the Krupp company. Her income is \$2,400,000, as the company only recently declared a 6 per
